

Notes for updating MASFAA website (www.masfaaweb.org):

The first thing everyone needs to do after the meeting is to bookmark www.masfaaweb.org and find your User Name and Password. We are making a big push to update the website and upload minutes & reports which will be very useful for sharing information with the executive council, committees, and the membership.

This is what can be done:

By going to Member Services in the Administrative Services area of the website, you can update committee members, calendar items, and load reports and documents. It's really quite powerful and useful.
